Your Skills Canada - Ontario Tool Kit

Is your school taking advantage of all of these great opportunities?

In-Class Presentations

Our "Skills Work!® What's Out There?" in-class presentation is a 45-minute multi-media, interactive experience for Grade 7 & 8 students. Features video clips, Q&A, a quiz challenge and eye-opening statistics about the opportunities available in the Skilled Trades and Technologies. Free with affiliation.

Cardboard Boat Races

Your grade 7 & 8 students will test their math and technology skills while having a blast! In teams of 4, students will design and construct a cardboard boat and participate in race and weight challenges. We provide most of the materials. Check our website for locations, registration info and FAQs.

Skills Awareness Week

Skilled Trades & Technology Week takes place November 1 - 7, 2010. Let us help you make the most of it with ideas and resources to inspire and engage your students! Go on a field trip or invite a tradesperson to talk to your class. Get involved with some cool activities — we'll show you how!

Elementary Day OTSC

The first day (Monday, May 2, 2011) of the Ontario Technological Skills Competition is devoted to elementary school students who can participate in pre-planned challenges and enjoy a variety of amazing workshops. Visit the Career Exploration Showcase, with over 65 interactive exhibits.

OTSC

The Ontario Technological Skills Competition is held every May, drawing 1800 student competitors from across the province who compete in more than 60 contests. Gold medal winning competitors may advance to the Canadian Skills Competition. May 2 - 4, 2011. Rim Park, Waterloo.

Skills Work !® Booklets

This comprehensive booklet provides more than 60 profiles of the most sought-after skilled trades and technology careers. An informative resource that answers frequently asked questions and provides useful resources. Affiliated elementary schools receive a class set of 20 copies.
