

YOUNG WOMEN'S INITIATIVES BECOME A MENTOR

- **Share your story and enthusiasm!**
- **Help prepare the next generation of female trades and technology professionals!**
- **Become a mentor!**

Skills Ontario Young Women's Initiatives highlight careers in the skilled trades and technologies to female students in grades 9 through 12.

We are currently seeking enthusiastic women who work or are training in a skilled trade or technology field to act as volunteer mentors.

These mentors share information about their career path with students in small groups, share a meal, and participate in icebreaker activities together.

GET INVOLVED AS A MENTOR FOR THE NEXT GENERATION OF TRADES AND TECHNOLOGY PROFESSIONALS!

Where:

Skills Ontario Career Exploration Events take place across Ontario. The Young Women's Conference is organized in conjunction with the annual Skills Ontario Competition.

When:

Events are organized throughout the Fall and Spring and typically run for 3.5 hours over lunch or dinner.

What training is offered?

Before the event begins we host a mentor reception and orientation. We also hold an annual "Mentor Build" workshop for volunteers looking for a deeper professional development and networking opportunity.

What is the dress code?

We encourage our mentors to dress in their day-to-day work attire. Mentors are encouraged to bring props, including tools, equipment, pictures or samples. This is a wonderful way for students to get a feel for the whole experience of being a tradesperson. Otherwise business casual is fine.

What benefits do I receive?

Mentors receive a free ticket to the event, including lunch or dinner, a great networking opportunity with likeminded professionals, and the personal satisfaction of supporting the next generation of female tradeswomen and technology professionals!
