
Ontario Technological Skills Competition

Skills Canada – Ontario is a not-for-profit organization dedicated to supporting the development of youth and the prosperity of industry in Ontario. We strive to promote the skilled trades and technologies as viable, first choice career options for young people.

The **Ontario Technological Skills Competition** is Skills Canada – Ontario’s cornerstone event, attracting over 1000 competitors and 10 000 visitors from across the province. Over 45 contests in the skilled trades and technologies are offered at the competition to secondary and post-secondary level students, including apprentices. These contests allow participants to showcase their skills, talent and knowledge while providing them many networking opportunities with partners from industry, labour, government and education.

In order to make the **Ontario Technological Skills Competition** a reality, over \$5 million worth of tools, equipment, material and supplies are generously donated by sponsoring organizations that understand and support the mandate of Skills Canada – Ontario. Hundreds of volunteers work countless hours throughout the year to ensure the contests run smoothly and that the hosting facility is prepared for the event.

Many secondary and post-secondary level gold medalists from the **Ontario Technological Skills Competition** will advance to the Canadian Skills Competition as members of Team Ontario.
