“Skills Work!® What’s Out There?”

In-school Presentation

Skills Canada – Ontario is a not-for-profit organization dedicated to supporting the development of youth and the prosperity of industry in Ontario. We strive to promote the skilled trades and technologies as viable, first choice career options for young people.

“Skills Work!® What’s Out There?” is an informative, interactive, 45-minute presentation about career opportunities in the skilled trades and technologies and is available in both official languages to schools affiliated with Skills Canada - Ontario. The presentation provides up-to-date, relevant information and encourages secondary students to investigate all of their post-secondary options.

This PowerPoint presentation includes: interactive dialogue; two short videos, including commercials from the “Skilled Trades – A Career You Can Build On” national awareness campaign developed by Skills Compétences Canada and the Canadian Apprenticeship Forum; and the award winning “Skills Work!® for Me!” which showcases real life success stories about skilled trades people. Also, included in the presentation is information on trends in the world of work and how they apply to career decisions, the demand for people in these fields, apprenticeship as a post-secondary option, the importance of employability skills and where to go for more information after the presentation. Delivered in an entertaining way by incorporating aspects of pop culture, this presentation is sure to catch students’ attention.
