

**International Day of the Girl
Animation Workshop (2023)**

TECHNOLOGY SECTOR

CRAFTING SKILLED TRADES THROUGH ANIMATION

***MAXIMUM: Teams of 2**

CHALLENGE GUIDELINES

Using resources from Skills Ontario and your own research, you will select at least one skilled trade occupation and gather as much information as possible in order to create a short animation. Your animation can be created using Google Slides, PowerPoint or be created by hand. Please use the tutorial provided to help with creating your animation.

Length of animation cannot be longer than 2minutes in length.

RESEARCH GUIDELINES

Students are required to complete a research component for this challenge. Students must consider researching the following:

- Job description
- Education & Training
- Educational Institutions that offer a program connected to this occupation
- Salary
- Job Market
- Locations in Ontario where you can find this occupation
- Characteristics of individuals in this occupation

SCORING/JUDGING

Acting/Movement – The characters and/or objects in the scenes are able to express emotion, movement and/or empathy in the audience to drive the action of the overall story.	__5 __10 __15 __20 __25
Timing/Flow – The timing of actions within the scenes is consistent between the characters/objects and supports the overall story. Actions by one character/object affect the actions of another in a manner that flows consistently. The animation does not exceed 2 minutes in length.	__5 __10 __15 __20 __25

Story Quality – The storyline illustrates a clear, strong connection to the theme provided and utilizes story elements such as character, protagonist, antagonist, point of view, setting, conflict, description, emotion, suspense, humour, rising action, in order to tell the story in an interesting, entertaining, creative and original way.	__5 __10 __15 __20 __25
Skilled Trade – Provides relevant and appropriate information about the skilled trade in terms of job description, education and training, salary and the overall job market.	__5 __10 __15 __20 __25
Total Mark	/100

How to Submit

To submit your project, go to <https://www.skillsontario.com/idg> click the button called “Submit Your Project”. You will be brought to a website where you must fill out all required information and upload your projects. Teachers can submit on behalf of their students.

Skills Ontario will directly email the winners using the email address provided with the submissions. A complete listing of the winners will be made available at <https://www.skillsontario.com/idg> on November 3, 2023.
