SURPRISE SUBJECT MATTER!!!!

Part 3

A mask manufacturer based in your community, has just contacted you through a customer referral... They are seeking out a local freelance photographer who can take a creative image of a face mask for an upcoming ad campaign. You were strongly recommended due to your professional approach, artistic eye & technical skills which align with their corporate values.

The art director has asked that you please submit (1) final image of a safety mask (ie *The Surprise Subject*), which shall be in landscape format. The subject must be positioned in the right hand half of the frame which will allow for "white" text to be added to the left half, by their advertising staff after the image has been submitted. As the photographer, you are encouraged to be as creative as you can with with the image.

For further clarity, the image can be composed at your discretion as a still life, with/without the use of a model, as colour, as black and white - the boundaries are completely up to you. Follow the naming and metadata instructions provided in Part 3 of the contest description.

Please note that the surprise subject matter only pertains to Part 3 of the Photography contest. Please see the scope, under Judging for specific information regarding the subject matter pertaining to each part.

Please email the Photography Tech Chair, Ben Eby, ben@benebyinc.ca if you require further information regarding this contest. For general inquiries please email Kate Belair, kbelair@skillsontario.com.
